## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Objections***

2. Claim 2 objected to because of the following informalities: In the last line "of outer ring." Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 1 rejected under 35 U.S.C. 102(e) as being clearly anticipated by Farringdon.

Farringdon discloses an interconnect apparatus comprising: a wearable garment 33, 34 having a body structure; and at least one interconnect element fig. 11 having a button hole opening 13 defined by an outer ring fig. 11, the outer ring having at

least one electrically conductive contact portion 111, 112, wherein said interconnect element is coupled to a fabric circuit (col. 5 lines 24-28 & col. 6 lines 20-21 & col. 6 lines 49-57) integrated in said garment via the at least one electrically conductive contact portion of the outer ring.

***Allowable Subject Matter***

5. Claims 7-12 allowed.
6. Claims 2-6 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. The following is a statement of reasons for the indication of allowable subject matter: The button connector that is adapted to make contact with the conductive contact portion of the outer ring.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
